THE PRICE TAG IS A CONVERSATION

HAGGLEMART - PRODUCT ONE-PAGER - OCT 2026

Fixed prices lose sales. Manual haggling loses time. HaggleMart is a storefront where an AI negotiator bargains with every buyer - around the clock, never below your secret floor price - then closes the deal straight into a PayPal order. Receipt, refunds, and stock update themselves.

MANUAL INVOICES NEEDED

BUILT FOR NEGOTIABLE GOODS

Vintage and collectibles, antiques, art, furniture, resale electronics - sellers moving inventory through Facebook Marketplace, Instagram, and WhatsApp chats who want a real storefront instead of another round of DM haggling. Buyers pay in one click. No account. No email required.
